Projects

ISRO'S ROVER CHALLENGE - 2024

As apart of this rover challenge i was fortune enough to contribute for the project as a team worker. Our project got selected for quals round., where we had to create a prototype for the proposed idea. I personally contributed to the team leader in communication system. I worked with pixhawk flight controller, sik telemetry radio using mission planner software and algorithms for pathfinding.

Internship

Internship with EXCLER - 2024

Got trained by professionals at EXCELR about Microsoft Business Intelligence or Power BI , Basic java programming.
